

Set Up Your Own Micro Green Farm

Project Micro Green

You get a complete kit to grow all your own micro greens year round. Includes a course so you can set it up, and get results Cheetah Fast. You will be eating your own greens in less than a month.

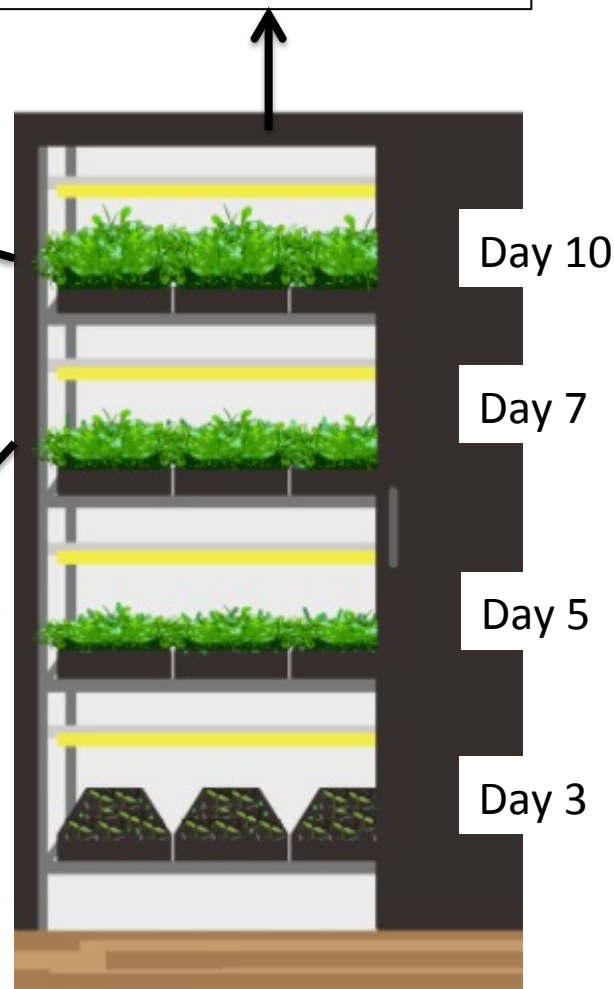

Hundreds of Micro Greens

From 4 to 40 x more nutritious than regular greens (NIH, WebMD)

- 1. Salads** – Lettuce, Kale, Chard
- 2. Herbs** – Basil, Chives, Cilantro,
- 3. Health** – Chia, Flax, Sunflowers

Micro Business

In the *Project Micro Green* Class you learn how to run your own profitable micro green farm. This system can generate \$3K - \$5k per month in revenue with under \$500 per month in expenses. *Already used in schools, grocery stores, restaurants, small farms and homes.*

Grow More Food, Faster, With Less Effort
